## 2. Waiver Type

The Project described above is exempt from the stormwater performance standards set forth in the Town of Ludlow Storm Water Bylaw (**By-Law Section 5.5**) for the following reasons (please check one):

- Land Disturbance will be less than one acre. Construction activity on sites with an overall area greater than one acre must attach written certification by a registered professional engineer or registered land surveyor that the land disturbance will be less than one acre.
- Agricultural activity that is consistent with an approved soil conservation plan prepared or approved by the Natural Resource Conservation Service.
- Logging activity that is consistent with a timber management plan approved under the Forest Cutting Practices Act by the Massachusetts Department of Environmental Management.
- Additions or modifications to existing single family structures.
- Emergency activity that is immediately necessary for the protection of life, property, or the environment, as determined by the Town of Ludlow Planning Board.
- Discharges into soil based systems or isolated low areas which will not overflow into a surface flow and has been demonstrated to have a minimum of four-month residence time between discharge point and any waters of the United States by a certified professional soil scientist, hydrologist, or registered professional engineer. Attach certification.
- Projects permitted and approved by the Town of Ludlow prior to the effective date of this By-Law, which is October 3, 2005.

## 3. Certification

I herby certify that the information contained herein including all attachments is true, accurate, and complete to the best of my knowledge. Further, I grant the Town of Ludlow Planning Board and its agents permission to enter the property to review this application and make inspections during and after construction.
