The meeting began at 7:00 p.m. in the Selectmen's Conference Room.

APPOINTMENT – Ali Bulut – 4-8 White Street (trailer / site plan)

Mail item #40 Notice of Violations re: 4-8 White Street (refrigerated trailer/delivery truck) from Leslie Ward, Building Commissioner/Zoning Enforcement Officer included in appointment)

Ali Bulut and Attorney Cornelius Phillips were present for the appointment.

Mr. Queiroga read the enforcement letter (mail item #40) from Leslie Ward, Building Commissioner, which stated that the refrigerated trailer and delivery truck must be removed from the property immediately and that Mr. Bulut must contact the Building Department with (3) three days to inform them how the issues have been corrected.

Mr. Phoenix mentioned that it was a big surprise that the trailer showed up on the property this year due to the fact that the applicant was told last year that it wasn't allowed.

Atty. Phillips asked if there was any way that the applicant could seek a variance to have the trailer located on the property for two months out of the year for wine grapes. Mr. Phoenix responded that if there is a belief that it satisfies the requirements for an appeal from the Zoning Board of Appeals, then Mr. Bulut would have the right to make an appeal every time he gets a violation letter, but that he's not sure that he has the grounds for an appeal, but that refrigerated trailers are against what the bylaws state. Mr. Phoenix mentioned that it was discussed last year that a refrigerated unit could be located on site as well as space in the building to maintain the product, and that the existing site plan was discussed.

Atty. Phillips said that he will contact the Building Commissioner in the morning regarding the violation.

Pickleball courts

Mr. Phoenix said that he's heard that some pickleball courts are being planned in town and asked if anyone has called the office regarding these.

Mr. Stefancik said that he will contact the parks department, DPW, school department, town administrator, and Boys & Girls Club to see if there are any plans for pickleball courts and to inform them that they would require site plan approval.

**Site Sketch – 534 Center Street (Assessors’ Map 16A, Parcel 66) Madhukar R. Medipally, DMD
(2nd floor office use)**

Madhukar Medipally, DMD and Bruce Wilson were present for the appointment.

Dr. Medipally confirmed that the site sketch is for future business use of the second floor.

Mr. Queiroga read the waiver request and comments from the town departments.

Mr. Phoenix: I’d like to make a **MOTION** to find that the proposal in front of us is suitable as a site sketch instead of a full site plan, to in fact waive that full plan down to the sketch, and further, again given the nature of the proposal, to waive the associated public hearing.

Mr. Coelho recused himself from the discussion as a board member.

OCT 28 A 10:50

Mr. Queiroga read the letter from Doug Stefancik requesting Mr. Baldyga come in for a meeting to discuss the parking issues on Kirkland Avenue.

Mrs. Baldyga said that there are eight parking spaces plus three on the driveway for the property. Mr. Phoenix remarked that the site plan that was approved shows five parking spaces for the whole building. He also noted that one of the concerns is that some of the vehicles are staying there for extended periods of time which eats up that parking lot. Mr. Phoenix remarked that the property owners could come in with a new site plan which shows additional parking and said that some of the businesses in town that are limited for parking find other sites nearby that have open air parking to park vehicles. He also advised them that what's going on now with the parking doesn't meet the bylaws or the approved site plan that's on file.

Mrs. Baldyga said that the parking became more congested after the new house was built across the street.

A discussion was had regarding where the parking spaces should be as opposed to what is noted on the site plan and whether parking could be put in front of the unused loading dock.

Mr. Coelho gave the details of the current parking situation and that the parking needs to be shown on the site plan and adhered to. He also said that the DPW will be putting up no parking signs on the street.

Mr. Phoenix explained that the property owners can have somebody go out to the property and make a new site plan and get creative with how to get some parking spaces called out as part of how the property is going to be managed. He noted that if the Planning Board doesn't approve the plan, they can always go to the ZBA to try to get a variance, but that the first step would be to get an engineer or land surveyor to see what can be legally put on the plan to support those businesses.

Mr. Carpenter: I make a **MOTION** to follow up with this in 90 days and unless we hear a complaint from a neighbor, then we'll just bring it back in and we'll kind of go from there.

SECOND Mr. Phoenix.

4-0 in Favor.

Roll call vote: Mr. Carpenter – yes; Mr. Phoenix – yes; Ms. Houle – yes; Mr. Queiroga – yes.

Zoning Bylaws (Self-storage facilities, AGMD District definition, Marijuana Bylaw: A. Purpose & B. Definitions)

Self-storage facilities

Mr. Stefancik gave the Board two draft definitions of self-storage facilities to review in which the Board agreed to use the first one: *Facilities also known as temporary storage or personal storage businesses which rent space, be it within a permanent building or in "cargo" boxes, for the temporary or long-term storage of personal items. These businesses generally have lease agreements with customers and have hours of operation during which customers may access their stored items.*

Mr. Phoenix also made some grammatical and punctuation corrections to the text of the article. The Board discussed whether a special permit should be required for self-storage in industrial zones and the Mill Redevelopment District.

Mr. Coelho: I'll make the **MOTION** to add special permit to Industrial A and Industrial C for the self-storage.

Mr. Phoenix: And to clean up the language in the text section.

AGMD District definition

Mr. Stefancik said that he added in: *The Agricultural Moderate Density Overlay District can be amended, from the original 1,000-foot measurement in existence from July 1, 1991, provided that sewer lines have been extended beyond the original 1,000 feet.* He explained that town counsel is still reviewing the change and that he is waiting for feedback.

Mr. Phoenix mentioned some punctuation and grammatical corrections in the article and reasoning text.

Mr. Phoenix: I guess since we're making motions, I'll make a **MOTION** to go forward with this one, tentatively pending feedback from town counsel, with the understanding that the formatting of agricultural moderate density overlay district will be standardized most likely by adding a comma after the word agriculture and further that the commas after amended and 1991 will be deleted and the word extending in the reasoning will be changed to extended.

SECOND Mr. Carpenter.
